

VS-FA-410 PETROL ADDITIVE

FORMULATED TO PROVIDE CLEAN FUEL SYSTEM

ENERGY CONSERVATION

Description

VS-FA-410 is a multifunctional, heavy-duty, petrol fuel additive specially formulated to provide Clean Fuel system for better fuel economy and less engine maintenance. It also contains cetane improver to enhance engine starting. It is comprised entirely of ashless organic compounds, and contains no alcohol.

Application Areas

All Petrol based equipment

Potential Benefits

- Helps keep Spark plugs clean for more efficient engine operation.
- Reducing the extent of both powers.
- Improves ignition quality, easier engine starts and faster dissipation of white smoke.
- Increases lubricity, extending the life of critical fuel pump.
- Increases fuel stability and corrosion control.
- Reducing filter plugging, sludge formation and fuel system corrosion.

Typical Properties

Appearance	Clear to hazy
Colour	Yellow Amber colour
Specific gravity	0.84

Recommended Dosage

1 ml. per litre

Packaging

Available in 20L HDPE Can.

Storage

Store cool and dry place in closed container Shelf-life is 24 months from date of production when store below 40⁰c in the original unopened container.

Safety & Handling

No special protection required while handling. *Material Safety Data Sheet available on request.*

Limitation

Customers must evaluate VSWMCO products and make their own determination as to fitness of use in their particular applications
