

# VS CLT 270

## ALGAECIDE & MICROBIOCIDE

## WATERTREATMENT COOLING TOWER

### Description

VS-CLT-270 is a product based on Bromine nontoxic and environmentally safe, Effective over a wide range of pH, control microbiological fouling effectively at a very low dose.

### Specification

Colour	Yellow to dark brown
Base	Bromine
Specific gravity	1.1 +/- 0.05
Toxicity	Nontoxic.
Free Halide as NaBr	15% maximum.

### Application

This is widely used for controlling Algae, Slime & Microbiological fouling in open cooling system, this product nontoxic in nature and environmentally safe. This product can be dosed along with scale & corrosion inhibitor without any problem.

### Handling

This should be handled very carefully, in case there is an eye contact wash with lot of water and give immediate medical assistance.

## Packing

---

50-liter HDPE carboys
